- 
- When it comes to aliens, a lot of pictures properly in everyone's mind.
  - For example, Mayan Civilization. Nazca Lines in Peru.....and so on.
  - Let's investigate the connection between Moon plan and aliens.
  - To begin with, we have already had the technology to go to the moon since Armstrong went there in 1969.
  - But we have never been to the moon from then on.
  - In recent years, NASA has published a video about Armstrong going to the moon at that time.

- 
- In the video, we can see the scene about broadcasting the Moon-landing.
  - However, there was an enormous creature, looking like a human being, Without any equipments standing far away in the film.
  - At that time, Armstrong said "Sir! You won't believe that I see a huge....."
  - No sooner had he said at the moment then the message interrupted. It's a little bit odd, isn't it? Actually, there were more news about Moon.
  - Long time ago, America's and Soviet Union's astronauts went back from the moon.

- 
- From then on, they're never been there again. It is said that the aliens seriously warned them not to go to the moon ever after.
  - According to the pictures from Soviet Union, we found there were some suspected man-made structures on the back of the moon, like the transparent glass-shade castles. Moreover, some scientists analyzed the composition of the moon.
  - They discovered that the moon is not solid, but it's HOLLOW! This discovery made many people voice several opinions. Some said there's the high civilization in the moon.
  - The alien's technologies are at least a thousand years ahead of us. Some thought the moon always faces to the earth by one side because the aliens are observing us all the time on the side.

- 
- It's been a mystery about one thing~Do the aliens exist in the universe?Although all the data information and pictures above are presently unproven,more and more rumors appear on the Internet,like the alien contact experience!Everyone can carefully think about this incident!
  - It's up to your judgement!Nevertheless,our team believe that aliens really exist in the universe!Since we are one of the creatures on the earth,how could this be possible that no aliens on other planets?
